

Practical, good looking and strong, ceramic tile is the ideal floor covering for high-traffic installations like health care facilities and commercial buildings. Follow the lead of Twin Cities Orthopedics and choose ceramic products that are design-friendly and durable.

Design Friendly & Durable

Porcelain ceramic tile in the locker rooms, patient waiting areas and on walls around the therapy pool mimic the beautiful variances of a natural wood grain and woven fabric. Tiny glints of hematite in the glaze create a soft gloss in the textured surface. A ribbon mosaic insert of stone and glass provides a colorful accent.
